10.3 Student Activity Centre

The Department of physical education conducted various sports events for students, staff and their families across the year. With support of institute, Department of Physical Education organized intramural and extramural sports events. Department extended complete support to all activities proposed by Ministry of Education, Government of India and NITs.

Indoor Sports and Recreational facility :

The Department of Physical Education (DPE) look after various students' activities and also provides the opportunity for employees and their family members to participate in sports tournaments. The Department of Physical Education consists of a Student Activity Centre (SAC) which has indoor sports and recreation facilities. The SAC offers an ultramodern gymnasium with state of the art fitness equipments. The weightlifting training platform is a new addition on the floor of the gymnasium. The Table Tennis hall is a perfect venue to invest leisure time. A synthetic floor is installed in TT hall for better friction and cushioning to reduce chances of injuries to the players. The pool table hall is a vibrant location to play games of snooker and billiards. DPE constantly puts their efforts for maintenance of the equipments in the pool table room. The badminton courts are updated with new LED lights. The students also enjoy playing chess and carom at SAC. The new Kabaddi mats have made the game more enjoyable and safe.

Outdoor Sports facilities :

The outdoor facilities, like Basketball and Tennis (with international class-3 lights) , Basketball courts, Volleyball courts, Kho-kho and Handball filed are all covered with lights. The auto on/off system of the lights is a new feature for the sports grounds.

The DPE also develops a new dedicated cricket ground. Developing a separate cricket ground enabled the institute to host and organize multiple cricket tournaments. The DPE also overcomes the challenges associated with the condition of the football field. With dedication, efforts and an inter-personal relationship with Surat district Football association, the football ground has been made playable again.

Host of the event :

Our prestigious institute was unanimously awarded the responsibility to host the All India Inter NIT Cricket, Power lifting, Weightlifting, and Bodybuilding Tournament 2022–23 at the All India Inter NIT Sports Calendar Meeting held at NIT Srinagar (UK) due to the grand success of the sports tournament hosted by SVNIT in year 2020–21. The institute left no stone unturned to make the event successful. The institute extended efficient and comfortable transportation, healthy and hygienic food, and comfortable accommodation to the participants and officials of the events.

The event was graced by the presence of prominent personalities. The cricket tournament was inaugurated by the commissioner of police in Surat, Mr. Ajay Kumar Tomar, and power sports was inaugurated by Jayveerrajsingh Gohil, prince of Bhavnagar. The event was completed without incident. Mr. Mahendra Chavan, an international bodybuilder, spared his valuable time to motivate participants in the bodybuilding competition. The Home Minister (and Minister of Sports), Mr. Harsh Sanghvi, gave away trophies to the champion cricket teams. Mr. Anshul Kothari, an international swimmer, gave away medals to the winners of power sports. The institute also engaged Mr. Robin Simon, Sports Officer, NIT Nagpur, as a neutral observer to look after the protest, but no single protest was registered. Prof. Dr. Ravi Kumar from NIT Warangal and Mr. Robin Simon delivered feedback speeches with positive remarks.

Achievements at Extra mural events : The Department of Physical Education is committed to creating and providing opportunities for deserving, talented students. The DPE has a strong belief in and practice of fair selection trials for all individuals to secure positions on sports teams. More than one selection trial has been offered to the students engaged in academic, curricular, co-curricular, and extracurricular activities. Additional trials were also offered to the player, which ended with lower performance compared to regular days. Additional trials were also offered to the players in the last positions. To keep the trials unbiased, selectors from other organizations were called. In general, the selection process was completed in multiple days.

To shape the team, a pre-competition training camps were organized. The achievements of extramural events are listed below.

Intra mural events: Winning medals at major platforms brings laurels to the institute, but the process of victory began with the first step: participating in intramural sports tournaments. Intramural tournaments and activities are equally important. An intramural event provides opportunities for a large number of participants to demonstrate their skills and talents. It also helps players overcome anxiety and fear of the stage and competition. Intramural events are a great way to celebrate sporting and competitive events as well as the promotion of various nations declared by the top leadership of the nation. An intramural event helps youth stay away from addiction, substance abuse, depression, home sleekness, and addiction to digital and virtual content. Intramural events are fruitful to gain physical fitness, achieve mental health, and be emotionally balanced, and they also give memorable moments to cheer and enjoy student life. The intramural events conducted, administered, and managed by the Department of Physical Education are as mentioned below.

11.4 NPTEL

NPTEL is a resource Centre for an online learning platform. The initiative is funded by the Ministry of Education, Government of India. The project's central idea is to put recorded lectures taught by its member institutes online for open access. SVNIT Surat is the local chapter of NPTEL, which takes this initiative to forward and encourage more students across the institute to participate in this initiative. NPTEL has been offering self-study courses across engineering, humanities and science streams for more than a decade. These are available at <http://nptel.ac.in>. From March 2014, NPTEL has been offering online certification for its courses, the highlight being the certification exam through which the student gets an opportunity to earn a certificate from the IITs.

11.5 Centre of Excellence

Water Resources and Flood Management (World Bank assisted TEQIP-II and TEQIP-III, Ministry of Education (formerly MHRD), Government of India)

About CoE

The Centre of Excellence on 'Water Resources and Flood Management' is one of the CoEs established by World Bank funded TEQIP-II project in the country and monitored by NPIU

(National Project Implementation Unit), Ministry of Education, Govt. of India. The CoE on 'Water Resources and Flood Management' was established in Department of Civil Engineering of SVNIT Surat during August 2013 to June 2017 through a grant of Rs. 4.15 Crore. The activities of the CoE are continuing under TEQIP-III also. The CoE is committed in development of world class Computational and Experimental facilities and trained manpower in dealing with water resources and flood issues in the country.

Objectives of CoE:

- To develop knowledge centre in the area of Water Resources Engineering and Flood Management by pooling the expertise from academic institutes and field industries through National and International collaborations.
- To strengthen existing Computational Hydraulics lab and Advanced Hydraulics Lab which would help in water resources management, flood forecasting, flood mitigation and study the behaviour of river models, in general, and flood control measures, in particular, for solving specific field problems.
- To propose the research projects in the priority area of Water Resources Engineering, i.e., climate change, sea water intrusion, rain water harvesting, watershed management and morphological behaviour of the rivers, through National and International collaborations to produce world class research output.
- Regular short-term training courses, Staff development programs (SDP), Workshops, Seminars and Field visits are being conducted through the proposed centre to develop the expertise in the area of Hydraulics and Flood Control Engineering among the faculties of surrounding government, private technical institutions and the engineers of field organisations.
