INTRODUCTION OF DIGITAL INDIA

- **Digital India** is a campaign launched by the Government of India in order to ensure the Government's services are made available to citizens electronically by improved online infrastructure and by increasing Internet connectivity or making the country digitally empowered in the field of technology
- Launched on 1 July 2015, by Indian Prime Minister Narendra Modi
- The initiative includes plans to connect rural areas with high-speed internet networks. Digital India consists of three core components: the development of secure and stable digital infrastructure, delivering government services digitally, and universal digital literacy.
- **The Mission Coordinator: Ministry of Electronics and Information Technology, Ministry of Finance**

VISION : DIGITAL INDIA

- The vision of Digital India programme is to transform India into a digitally empowered society and knowledge economy.
- 1. Digital Infrastructure as a Core Utility to Every Citizen
- 2. Governance & Services on Demand
- 3. Digital Empowerment of Citizens

THE FOCUS IS TO BRING TRANSFORMATION TO REALIZE

IT + IT → IT
Indian Talent + Information Technology → India Tomorrow

SERVICES : DIGITAL INDIA

1. ACCESSIBLE INDIA CAMPAIGN AND MOBILE APP

- Sugamya Bharat Abhiyaan or Accessible India Campaign is a nation-wide flagship campaign for achieving universal accessibility that enables people with disabilities to gain access for equal opportunity, live independently and participate fully in all aspects of life in an inclusive society.

SERVICES : DIGITAL INDIA

➤ 7. EOFFICE

- The eOffice product aims to support governance by ushering in more effective and transparent inter and intra-government processes.
- The vision of e-Office is to achieve a simplified, responsive, effective and transparent working of all government offices.
- The Open Architecture on which eOffice has been built, makes it a reusable framework and a standard reusable product amenable to replication across the governments, at the central, state and district levels. The product brings together the independent functions and systems under a single framework.
