## MESSAGE

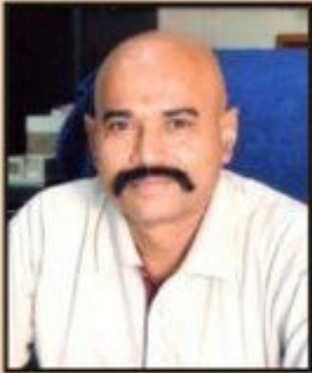

Sardar Vallabhbhai National Institute of Technology popularly known as SVNIT is an Institute of National importance. I am happy to know that the graduates from the Institute are serving our country since almost five decades.

SVNIT Alumni Association is active since more than a decade. I am impressed by knowing the activities taken up by the Association. The Association has taken up ambitious project of Innovation Centre. I am sure this will be probably first of its kind among such Institutes for higher Education per excellence.

11th Convention of SVNIT Alumni Association is to be held on 5th January 2013. I welcome all Alumni Members to Surat and Wish You all Happy and memorable re-union.

*Darshana Jardosh*

**Darshana Jardosh**

On behalf of the Institute, I have great pleasure in welcoming all of you to the 11th General Convention of SVNIT Alumni Association Surat. As you are keen to know about what is happening in our beloved Institute, so I am more excited to tell you about it.

We have a very vibrant Alumni Association capable of delivering cooperation and contribution. Over the past few years tremendous efforts are being made in almost all the fronts, by one and all members of SVNIT family to develop the institute and the infrastructure. We have been providing the ambiance for our faculty and students to live up to their highest potential. The emphasis on research publications, attending national and international conferences, patenting etc., has increased over the years.

A new trend has been introduced this year for students to excellence in academic research through the generous donation of Alumni and well wishers.

I wish all the success to the association in its endeavour to excel in all walks of life.

**Dr. P. D. Porey**

Director

SVNIT, Surat

It is a proud moment for Sardar Vallabhbhai National Institute of Technology to witness the 11th Annual General Convention of its Alumni Association on 5th January 2013 alongwith a Silver Jubilee Celebration of 1988th pass out batch.

The amalgamation of the present and the past students will definitely associate the progress of the Institute leading to the pinnacle of the success. This Convention with its unique nature will create indelible memory for the members of the association and will provide a glimpse of future to the present members.

It will be an opportunity to expand our horizon amongst the who is who of different corporate sectors in the larger interest of the Institute. All my best wishes to the association for a grand success of this event.

**H. A. Parmar**  
Registrar, SVNIT

Wishing 11th SVNIT Alumni Convention a great success with new Vision & Mission under the dynamic leadership of the President SVNIT Alumni Association.

As a Dean (Alumni & Resources Generation), I focus, highlight and expect from the reputed well known aluminates to contribute to the Institute in the form of personnel involvement, financial support under the projected objectives referred in OG approved MOA. College authority has prepared Vision 2020, in which Vision & Mission of SVNIT - Alumni Association is also highlighted.

Silver Jubilee meet (1988 pass out) is also expected to be a great success with remarkable participation to achieve another benchmark for incoming such meets. I would like to convey two messages to SVNIT students through this "Milaap" Souvenir.

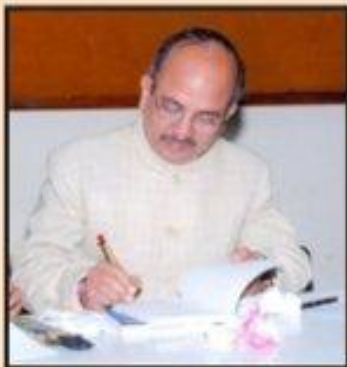

- ◆ **WORK SHARPER, NOT HARDER** - This is an essential principle of Time Management. To get worthwhile results one should work in an organised manner.
- ◆ In real life, everyone wants to have more pay and more facilities without a corresponding increase in the production of goods & service quality. The results is inflation, money is nothing but an exchange instrument for goods & services.

**ALL THE BEST**

**Dr. D. V. Bhatt**

Professor (MED) & Dean (AL & RG)

It gives me a great pleasure to state that The SVNIT Alumni Association has taken a rightful appropriate shape when the M.O.A. was approved by the Board of Governors of the Institution and is being implemented from this current academic year.

Hence, our first mission to be an integral part of the Institution is now accomplished.

Moreover, The SVNIT Alumni Association website has also gone thorough reconstruction with a touch of in campus monitoring is going to be launched on 5<sup>th</sup> January, 2013.

Throughout all the years in past, since its inception, SVNIT Alumni Association is successful to inculcate the strong bonding of love and affection among its members and institution itself, as participation has increased manifold.

The association is now involved in a plethora of activities. These include process of setting up a convention centre, lecture series, allocating funds for student's participation in various national and international conferences and supporting the financially weak students.

Many National and International chapters are already existing and meetings and get-togethers of which are taking place regularly including Surat chapter's much colourful Raas Garba night program every year.

I would congratulate all the members of current managing committee for their tremendous efforts to make the Association a more Progressive and interactive platform with each passing by year.

I wish grand success to this 11<sup>th</sup> General Convention and Silver Jubilee celebration for 1988 pass out batch.

**N.M. BHATIA**  
I.P.P., SVNIT

Dear Alumni Members,

It gives me immense pleasure to welcome you all on this auspicious occasion of 11th Annual General Alumni Convention. This year the Convention is a remarkable one, as it is the first such Convention since our MOA was approved by the BOG and by virtue of this now we are very much, an integral part of the Institution.

I was simply a fresher when I took charge from my predecessor Er. N. M. Bhatia. I gave a thought whether I would be able to do justice to my duties. But to my utter surprise everything eased up so smoothly by the encouraging support of our worthy director Dr. P. D. Porey, & able guidance from Dean Alumni Dr. D. V. Bhatt and my supportive Committee Members.

Since all objectives of our MOA lead to greater social & educational, welfare schemes in larger interest but is subject to availability of funds to sustain. You will be delighted to know that a meagre subscription of Rs. 1000 by each student at the time of admission has now swelled to a fund of one crore. Out of which we are eligible to spend only the amount generated by the interest accrued. This amount is just enough to sustain the year long activities such as holding convention, organising events and get - together and assisting needy students.

South Gujarat, specially district of Surat has now emerged as one of the biggest industrial hub in India. You will definitely agree that without a support of quality technical research and development work no industry can excel and prosper. With this perspective the association has always dreamt a concept of a state of art innovation centre which can cater the need of industry. A budget of Rs. 4 cr. is estimated for construction and furnishing cost for this centre as the land is provided by the institution.

We have a firm commitment of Rs. 0.60 Cr. from Surat industrialists and alumni. For balance fund I would like to utilize this platform for a sincere appeal to all my learned and well settled alumni of this college for a generous contribution as this the right time to pay back to our alma mater.

In addition to this I would also appeal to this august gathering to come forward for sponsorship of the series of lectures and seminar organized by association from time to time.

We dream to take the association to such a height from where we can set a landmark. Your suggestions and comments are always welcomed in this endeavour.

I heartily thank to Hon. Director, IPs Er. Ashok Moitra, Er. Percy Sawai and members of managing committee for their painstaking efforts.

Friends keep it up.

**Er. Bharat Patel**

President, SVNIT Alumni Association

Dear Alumni Members,

It gives me an immense pleasure to deliver a secretarial report of the year 2012-13, which was full of events, activities and chapter meets.

The first significant thing which happened was the approval of MOA. With the generous efforts of our director Dr. P.D.Porey Memorandum of our Association was approved by the Board of Governors of S.V.N.I.T.

After the formation of managing committee our first mission was to connect as many as alumni members with our association and collecting data of our alumni so that we can have our own network to communicate, exchange

views and help each other in best possible way. We are succeeded in some extent but to achieve more we are launching our updated web site 'SVNITALUMNI.COM' on the day of 11<sup>th</sup> Annual Convention i.e.: 5<sup>th</sup>, Jan, 2013. Which is more dynamic and interactive? I appeal to all our alumni to take advantage of it.

Under the able leadership of our dynamic president Er. Bharat Patel along with the zealous support of all my managing committee & alumni members, we started our activities with a highly appreciated & motivational seminar "Live Life King Size" at science centre, Surat by our own alumnus Mr. Jaswindarsing lovingly known as 'Jassi' from Vadodara. In front of a gathering of around 175 members from our family.

Alike each autumn the traditional Ras Garba night called 'RAMZAT' was organised at staff club ground in campus with live orchestra and with mouth-watering dinner. This event was a great success and alumni who attended with their family were full of praise for the event and insisted that we should organise such colourful events more frequently.

As far as chapter meets are concerned, we had three such meets during the year,

- At Delhi on 28<sup>th</sup> October, 2012 under the organisational skill of our IPP Er. N.M.Bhatia
- At Navsari on 2<sup>nd</sup> December, 2012 under the management of chapter coordinator Er. Sanjay Desai
- At Vadodara on 30<sup>th</sup> December, 2012 under the management of Er. Ketan Patel and Er. Y.D.Mehta

And how can we forget our annual convention event every year along with the silver jubilee celebration of respective pass out batch? This year too we are celebrating it with fun and sweet remembrance along with our faculty members, past and present professors, administrative staff and of course our family members.

At this juncture I take the opportunity to thank our Chairman Dr. P.D.Porey for his ever vigorous guidance and support, Our Dean Dr. D.V.Bhatt for his co ordination between the association and institution, our President Er. Bharat Patel for his vision, guidance and moral support and was back bone throughout the year, all committee members for their support and not to forget our immediate past president Er. N.M.Bhatia and immediate past secretary Er. Ashok Moitra for their never say die attitude. I also thank our Alumni friends who has sponsored events and contributed for organising the events.

Thanks once again and expecting more support and involvement from our alumni friends.

**Percy Savai**  
Secretary

## Achievement

### Shankh Dhwani Club

First in India - Limca Books of Records-2011

Scientific Importance of a Conch blowing (Shankh Naad) in modern times

At present the use of Conch is restricted to temple worship only. It is used in worship or performing religious rites and it finds in a fixed place in the temple only. The common man is unaware about its use or experience because of lack of information about conch.

Since last one year different personalities indulging in conch blowing (Shankhnaad) who

were contacted by me have expressed their wonderful experience. More over different doctors specializing in various field have also consented to support this concept mentioned below.

\* By blowing a conch, vibration takes place in the brain (mind) and it is experienced that all nerves of the brain are opened by circulation of the blood.

\* Conch blowing gives exercise to the jawbone. There is no gadget or instrument made for that purpose and with its activity jaw bones having contracted get developed.

\* By conch blowing the wrinkles of face and the skin below the eyes having contracted (full of wrinkles) gradually fade away and the face wears a new look.

\* By conch blowing (Shankhnaad) blood circulation of the eyes gets enhanced and it adds brightness to the eyes.

\* By conch blowing negative energy is warded off and minute bacteria in the surrounding atmosphere are destroyed and the whole windy environment gets purified. (Narad Puran).

\* By blowing a conch the lungs become strong and developed in addition with cold and breathing troubles like asthma are also cured in the long run. By regaining physical fitness, sickness is never repeated.

\* Conch blowing (Shankhnaad) can be considered as a long breathing practice through the nose complimentary to the wind moving in the conch is "Bramari Pranayam."

\* The use of the conch for a long time can enhance the gracefulness of the face which can bring a lustrous and spiral look there on is called Aura.

\* Thus, a regular use of "Shankhnaad" can bring about physical, mental and spiritual progress, there is no distinction of caste, creed, colour, religion or age in conch blowing activity. Therefore regular use of a conch is for one and all. In the practice of conch blowing there is no question of investment. From fifty to rupees five hundred a conch of varied size emanating different tones of sound are available.

Having achieved personal experience we the beneficiaries have floated (established) a "Shankh Dhwani Club" "First in India" and we all take a pledge that having possessed a conch (Shankh) we shall not restrict its use for puja (worship) only but we shall blow it at the sunrise as well as at the time of sunset three times and know all the experience that we have gained from its use.

For the awareness of the mass people and for their mental, spiritual and physical development I wrote and published a unique booklet "Shankhnaad" in Gujarati on 30.5.2010 in the presence of my trained 100 "Shankhnaad" of different sectors of the society. On the very same day I established "Shankh Dhwani Club" first of its kind in Surat city and India. National T.V. Channels of India like Star News, IBN-7, India T.V., aaj-Tak, Sahara India and Tej etc. had taken interviews of 100 Shankhvadaks and telecasted my new concept first time in India of the Shankh Dhwani Club as well as abroad in 30 foreign countries.

People of Bharat Varsh had noted the importance of the numerous benefits achieved by this Shankhnaad activity.

Local highly esteemed news papers of Gujarat like Sandesh, Divya Bhaskar, Gujarat Samachar, Gujarat Mitra, D. B. Gold etc had taken note of this unique novel concept on Shankhnaad.

Chitraleka an internationally renowned magazine has also given publicity in this subject on Dt. 21.6.2010.

## **WOMEN ENTREPRENEURSHIP THE NEED OF NATION EXPERIENCE SHARING STORY**

Woman is one of the important creations of ALMIGHTY in the global mankind society. It is a well-known fact that females are known as SHAKTI and good managers as kitchen queen. Live examples in all different fields are Jhansi ki Rani, Indira Gandhi, Aishwarya Rai, Sudha Murthy, Jay Lalitha, Phoolan Devi, Chanda Kochar, Tina Ambani, Nita Ambani etc. which highlights the success story of females in all the fields. Role of women in the society is well known as 'Mother', 'Sister', 'Daughter' etc. but at present the most important role is as 'LIFE PARTNER' in the era of global Indian economy development. WHY? Till the date the role of LIFE PARTNER was limited to be a housewife along with cultivation of culture and the family kids. Under the developing era, education is increased in the women community and it varies from 20% to 60% in urban area, which has resulted equal economic partnership along with the life partners as an employee on large scale. Here actions are required to divert the flow of women job seekers towards self-employment instead of being oneself employed to get rid of unemployment issue of male community and at the same time to sustain the family life. Here the experience is shared as a woman who has achieved something as an entrepreneur.

Technically qualified, with bright career associated, with self-selected life partner without looking into education equality started a small business activity in the field of growing business opportunities 15 years back with a meagre investment of @ Rs 10 to 15 thousand in the field of Hardware of computers. We both partners were not having any academic and theoretical background of the selected business but vision was clear about the opportunities. It required hard work along with smart actions which has resulted in the minimum growth rate of 15% every year since its inception. WHY? HOW? The few principles of business management were strictly followed and the ALMIGHTY helped the business. The basic principles followed are:

1. No option to hard work and honesty.
2. Timely actions with time management.
3. Customer satisfaction with transparency.

For the motivation of the female technocrat students the experience story of the author is narrated here which may help to think about the career option.

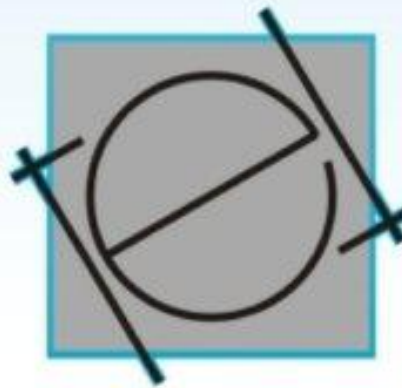

During my first employment as an engineer once the General manager of the Public Limited organization asked me the question " Do you think that you have spoiled one engineering seat and snatched away the bread and butter of one boy candidate ?" I was deeply shocked but at the same moment I answered "Yes sir, I will not leave my gender responsibility however I may think of self-employment." I implemented what I said and today am able to support on an average 10 to 15 families.

My message particularly to girl students is that Don't be a Job Seeker Be a Job Creator and enjoy life like a 'BOSS' in the field as well as the family.
