DIRECTOR'S REPORT

It gives me immense pleasure to extend my warm greetings to all students, faculty members, alumni, and stakeholders through this edition of our Annual Magazine. This publication is a reflection of our collective achievements, values, and aspirations.

As we navigate the rapidly evolving technological landscape, it is imperative for institutions of higher learning to adapt and innovate. In keeping with this vision, our institute has taken a significant step forward by introducing five new academic programs that address both the aspirations of young minds and the emerging needs of the nation. These courses were launched in the academic year 2024–25, and I am delighted to share that they have commenced with great enthusiasm and overwhelming response from students and faculty alike.

The MBA in Business Analytics will empower future leaders to harness data for strategic decision-making—an essential skill in today's digital economy. The B.Tech in Mathematics and Computing will nurture analytical thinkers with strong foundations in computational logic and algorithmic processes, preparing them for high-impact careers in research, finance, software, and beyond.

With the growing relevance of interdisciplinary sciences, the B.Tech in Industrial Chemistry will bridge the gap between pure science and industrial application, enabling students to contribute to sectors such as pharmaceuticals, materials, and sustainable manufacturing. Meanwhile, B.Tech in Engineering Physics will train innovators at the interface of physics and engineering—equipping them for careers in nanotechnology, quantum computing, and advanced instrumentation.

Our Integrated B.Tech-M.Tech program in Artificial Intelligence is a future-focused initiative, offering an in-depth, seamless learning path in AI. It aims to create a generation of specialists who can drive automation, develop intelligent systems, and contribute to India's vision of becoming a global AI hub.

In parallel with academic expansion, we are also undertaking major infrastructure development across the campus. New administrative and academic blocks, advanced laboratories, and student-centric amenities are being constructed to provide a vibrant, inclusive, and future-ready learning environment. We are investing in smart classrooms, green energy solutions, and collaborative spaces that foster creativity and innovation.

We continue to strengthen our focus on research and innovation through faculty-led projects, student research fellowships, and interdisciplinary research clusters. Our institute has recently signed MoUs with leading academic institutions and industries, both in India and abroad, to facilitate knowledge exchange, joint research, and internship opportunities. These collaborations not only enrich our research ecosystem but also expose students to real-world challenges and solutions.

As Prime Minister Narendra Modi has said, *“Skill development is not just a part of education; it is a national need.”* We at SVNIT take this message to heart, and these initiatives are designed to empower students with the skills, values, and vision required to serve society and industry meaningfully.

In the words of Dr. A.P.J. Abdul Kalam, *“Learning gives creativity, creativity leads to thinking, thinking provides knowledge, and knowledge makes you great.”* We believe in nurturing this cycle through a blend of rigorous academics, holistic development, and cutting-edge research.

I congratulate the editorial team and all contributors for this issue of the Annual Report. May it continue to inspire thought, dialogue, and excellence.

Prof. Anupam Shukla
DIRECTOR
Sardar Vallabhbhai National
Institute of Technology, Surat.

10.2 Hostels

The Institute's hostel section manages accommodation, food, and student welfare. Currently, the campus has TEN hostels—SEVEN for boys, TWO for girls, and ONE for married scholars—housing over FIVE THOUSAND students. The administration ensures a clean, comfortable living environment with 24/7 staffing by Chief Wardens, Wardens, Supervisors, and Hostel Boys staff. Each hostel includes a dining hall, water coolers, common rooms, and reading rooms. The Mess offers balanced meals at reasonable rates, with menus set by students and adjusted seasonally in consultation with Chief Wardens. Common rooms provide magazines, TVs, and newspapers, while Wi-Fi and LAN ensure internet connectivity. The hostels feature spacious, green surroundings and well-designed rooms equipped with fans, lights, and sturdy furniture. Residents receive fully furnished accommodations, including study tables, chairs, cots, and almirahs. Each wing also has verandas and balconies.

The hostels' activities are managed by the Council of Wardens (CoW) and the Hostel Management Committees (HMC), which consist of student representatives. The hostel section is overseen by a team of Chief Wardens and Wardens. Additionally, a Students' Executive Council serves as a communication bridge between the hostel administration and the students. To maintain discipline, the hostel section enforces a set of rules and a code of conduct. Overall, hostel management operates democratically, with active student participation.
